Section A. All Supporting Organizations

	Yes	No
1 Are all of the organization's supported organizations listed by name in the organization's governing documents? If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.		
2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2).		
3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? If "Yes," answer lines 3b and 3c below.		
b Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? If "Yes," describe in Part VI when and how the organization made the determination.		
c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? If "Yes," explain in Part VI what controls the organization put in place to ensure such use.		
4a Was any supported organization not organized in the United States ("foreign supported organization")? If "Yes," and if you checked box 12a or 12b in Part I, answer lines 4b and 4c below.		
b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.		
c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.		
5a Did the organization add, substitute, or remove any supported organizations during the tax year? If "Yes," answer lines 5b and 5c below (if applicable). Also, provide detail in Part VI , including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).		
b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?		
c Substitutions only. Was the substitution the result of an event beyond the organization's control?		
6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? If "Yes," provide detail in Part VI .		
7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? If "Yes," complete Part I of Schedule L (Form 990).		
8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described on line 7? If "Yes," complete Part I of Schedule L (Form 990).		
9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons, as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? If "Yes," provide detail in Part VI .		
b Did one or more disqualified persons (as defined on line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? If "Yes," provide detail in Part VI .		
c Did a disqualified person (as defined on line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? If "Yes," provide detail in Part VI .		
10a Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? If "Yes," answer line 10b below.		
b Did the organization have any excess business holdings in the tax year? (Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)		

Part IV Supporting Organizations (continued)

	Yes	No
11 Has the organization accepted a gift or contribution from any of the following persons?		
a A person who directly or indirectly controls, either alone or together with persons described on lines 11b and 11c below, the governing body of a supported organization?		
11a		
b A family member of a person described on line 11a above?		
11b		
c A 35% controlled entity of a person described on line 11a or 11b above? If "Yes" to line 11a, 11b, or 11c, provide detail in Part VI .		
11c		

Section B. Type I Supporting Organizations

	Yes	No
1 Did the governing body, members of the governing body, officers acting in their official capacity, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's officers, directors, or trustees at all times during the tax year? If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove officers, directors, or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.		
1		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.		
2		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).		
1		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
1		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).		
2		
3 By reason of the relationship described on line 2, above, did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.		
3		

Section E. Type III Functionally Integrated Supporting Organizations

1 Check the box next to the method that the organization used to satisfy the Integral Part Test during the year (see instructions).			
a <input type="checkbox"/> The organization satisfied the Activities Test. Complete line 2 below.			
b <input type="checkbox"/> The organization is the parent of each of its supported organizations. Complete line 3 below.			
c <input type="checkbox"/> The organization supported a governmental entity. Describe in Part VI how you supported a governmental entity (see instructions).			
2 Activities Test. Answer lines 2a and 2b below.			
a Did substantially all of the organization's activities during the tax year directly further the exempt purposes of the supported organization(s) to which the organization was responsive? If "Yes," then in Part VI identify those supported organizations and explain how these activities directly furthered their exempt purposes, how the organization was responsive to those supported organizations, and how the organization determined that these activities constituted substantially all of its activities.			
2a			
b Did the activities described on line 2a, above, constitute activities that, but for the organization's involvement, one or more of the organization's supported organization(s) would have been engaged in? If "Yes," explain in Part VI the reasons for the organization's position that its supported organization(s) would have engaged in these activities but for the organization's involvement.			
2b			
3 Parent of Supported Organizations. Answer lines 3a and 3b below.			
a Did the organization have the power to regularly appoint or elect a majority of the officers, directors, or trustees of each of the supported organizations? If "Yes" or "No" provide details in Part VI .			
3a			
b Did the organization exercise a substantial degree of direction over the policies, programs, and activities of each of its supported organizations? If "Yes," describe in Part VI the role played by the organization in this regard.

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16j, 18e, 19e, 20a, 20b, 20c, 20d, 20e, 21c, 21d, 23, and 24. If applicable, provide separate descriptions for each hospital facility in a facility reporting group, designated by facility reporting group letter and hospital facility line number from Part V, Section A ("A, 1," "A, 4," "B, 2," "B, 3," etc.) and name of hospital facility.

Monadnock Community Hospital:

Part V, Section B, Line 5: Monadnock Community Hospital (MCH) used a methodology that was highly focused on identifying needs among underserved populations. The approach used was designed to elicit perspective from a broad range of community stakeholders - especially those representing higher risk groups. MCH used a multi-phased methodology to achieve the objectives of the assessment.

MCH reached out to a group of individuals to participate in its Community Health Needs Assessment (CHNA) to contribute insights from patients, community service organizations, and staff. Each person provided project feedback regarding perceptions of area health needs, data evaluation, and other guidance during the CHNA process. The individuals had a breadth of community health vision, knowledge, and leadership to impact the well-being of the service area.

The CHNA methodology includes a combination of quantitative and qualitative research methods designed to evaluate perspectives and opinions of area stakeholders and healthcare consumers - especially those from underserved populations. The methodology used helped prioritize the needs and establish a basis for continued community engagement - in addition to simply developing a broad, community-based list of needs.

The major sections of the methodology include the following:

- Strategic Secondary Research. A comprehensive analysis of previously published materials and existing data to provide insight into the

community profiles and health-related measures.

- Stakeholder Interviews and Focus Groups. Qualitative, primary research involving one-on-one interviews and focus group discussions with the MCH CHNA Leadership Group, community service providers, and healthcare consumers representing diverse perspectives across the service area.

- Community Survey. Crescendo conducted an online survey with over 530 community members. The survey results and analysis are included in this report.

- Needs Prioritization Process. The needs prioritization methodology included a Modified Delphi Technique. First, MCH CHNA Leadership Group met to review early research results and the potential list of community needs. Second, after completing the secondary research, interviews, focus groups, and community survey, a list of 33 key community health issues was formalized. The Leadership Group then participated in a two-phase prioritization process in which they quantitatively evaluated (i.e., ranked) each of the 33 identified needs and shared insight regarding their rationale for the ranking priorities. This process resulted in a prioritized analysis of community needs.

To ensure broad and deep community engagement in the CHNA, MCH compiled a group of community leaders, which represented public health and diverse community interests.

To complement the Environmental Analysis, extensive qualitative research was conducted throughout the MCH service area. The interviews provided an opportunity to have in-depth discussions with community members to better understand the community, its strengths and valued resources, prioritized

needs, and other insights. To review the Interview Guide (interviews) and Moderator's Guide (focus group discussions), please see Appendix B and Appendix C.

The qualitative research included five focus group discussions and interviews with over 20 stakeholders. In total, across both qualitative research stages, participants from various sectors, including those listed below, contributed valuable insights:

- Referring Partners
- Healthcare Providers
- Non-Profit Agencies
- Social Service Organizations
- Faith-Based Institutions
- Educators
- Community Volunteers
- Users of Monadnock Community Hospital services
- Higher-risk Community Representatives.

The community survey was made available online in English and Spanish from July 17 through August 22, 2024. The questionnaire included closed-ended need-specific questions, open-ended questions, and demographic questions. Invitations to participate were distributed by Monadnock Community Hospital and its partners through channels including email and social media. Strategic outreach was conducted to ensure maximum participation from community members, especially in vulnerable communities.

In total, there were 536 valid survey responses, all of which (100.0%)

were to the English language survey. Special care was exercised to minimize the amount of non-sampling error through the assessment of design effects (e.g., question order, question-wording, response alternatives). The survey was designed to maximize accessibility and comprehensively evaluate respondents' insights.

The survey served as a practical tool for capturing insights of individuals across Monadnock Community Hospital's service area. This was not a random sample, and findings should not be interpreted as representative of the full population.

Part VI Supplemental Information

Provide the following information.

- 1 Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8, and 9b.
- 2 Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- 3 Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (for example, open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

Charity care and means tested programs use the cost to charge ratio as their methodology. This Hospital calculates the ratio in a manner consistent with worksheet 2, patient care charges to patient care expenses, to arrive at the ratio of cost to charges.

Part I, Line 7g:

Monadnock Community Hospital has several hospital clinical services and hospital-owned physician practices. In accordance with IRS Instructions for the Form 990, Schedule H, Worksheet 6, organizations may include any applicable physician practices that are subsidized during the completion of Schedule H. Furthermore, the definitions for Schedule H, Worksheet 6

Part VI Supplemental Information (Continuation)

indicate that operating a service at a loss may constitute subsidizing a health service. Therefore, the Hospital has included the following hospital clinical services and hospital-owned physician practices that operated at a loss, and their associated costs, in the calculations for the Hospital's total subsidized health services, as reported on this Schedule H.

a - Hospital based rural health clinic

b - Cardiac Rehab

c - Monadnock Family Care

d - New Ipswich Family Medicine

e - Jaffrey Family Medicine

f - Monadnock Behavioral Health

g - Monadnock Regional Pediatrics

h - Monadnock Surgical Associates

i - Anticoag Clinic

j - Orthopaedics

k - Rindge Family Practice

l - Internal Medicine

m - Monadnock Gastro Associates

n - Monadnock Rheumatology Associates

o - Oncology

p - Rivermead

The above-listed hospital clinical services and hospital-owned physician practices have a community benefit (i.e. aggregate loss or subsidy from the Hospital) of approximately \$16.4 million. In addition, this community benefit-figure does not take into account bad debts, charity care, or

Schedule H (Form 990)

Part VI Supplemental Information (Continuation)

contractual adjustments. Thus, this community benefit of approximately \$16.4 million is a conservative figure that reconciles to the community benefit information reported on IRS Form 990, Schedule H, Part I, Line 7g, Column e.

Form 990, Schedule H instructions and guidance contains a template (Worksheet 2) that may be used to determine the overall cost to charge ratio that could be applied throughout Schedule H in order to convert charges to a cost-of-service basis. Where applicable, the Hospital has utilized Worksheet 2 for various calculations. The only areas where Worksheet 2 was not utilized was in the preparation of this Schedule H, Part 1, Line 7, were the following:

a. Schedule H Worksheet 6, Subsidized Health Services (the supporting worksheet for Part I, Line 7g): the Hospital did not utilize Worksheet 2 when calculating the percentage used when determining the profit or loss of each hospital clinical service and hospital-owned physician practice. Instead, when compiling the subsidized hospital clinical services and hospital-owned physician practices listed in 1c, the Hospital utilized the actual estimated costs on the modified Medicare cost report instead of applying the Worksheet 2 cost to charge percentage.

b. Schedule H, Worksheet 3, Unreimbursed Medicaid and Other Means Tested Government Programs (the supporting schedule for Part I, Lines 7b and 7c); and Worksheet 6, Medicaid Allowable Costs for Subsidized Health Services, listed in line 1c above (which is part of the line 7g costs): the Hospital did not utilize the Worksheet 2 cost to charge percentage when calculating the Medicaid allowable cost. Instead, the Hospital utilized the actual,

Schedule H (Form 990)

Part VI Supplemental Information (Continuation)

filed Medicaid cost report for the allowable costs.

Part I, Line 7, Column (f):

The Bad Debt expense included on Form 990, Part IX, Line 25(A), but subtracted for purposes of calculating the percentage in this column is \$ 7,623,534.

Part II, Community Building Activities:

Monadnock Community Hospital, a not-for-profit hospital, has a primary care network of physicians, nurse practitioners, psychiatrists, psychologists, and social workers. This network provides a wide range of primary and behavioral health care services for individuals and families with offices in Peterborough, Antrim, Jaffrey, New Ipswich and Rindge.

Each year, MCH seeks to make the Monadnock Region a healthier place to live by identifying new and changing healthcare needs, then developing a strategy to address some of the most pressing issues. In addition, no one is turned away who is in need of medical care. Our mission is to provide health care for everyone in our community, regardless of their ability to pay. Some examples of our efforts to reach beyond traditional hospital services include:

- Providing services to patients unable to pay
- Offering access to medication, free or at reduced cost - millions of dollars in medicine has been dispensed since the Medication Assistance program was started in 2002.
- Improving community access to dental care resources.
- Provide training for community agencies, such as local volunteer fire and rescue personnel.

Part VI Supplemental Information (Continuation)

- Offer prevention and wellness education, from smoking cessation to dealing with stress.
- Screenings and clinics for important health issues such as breast cancer.
- Supplying information and support regarding timely health topics.
- Offer behavioral health (Substance use & mental health) trainings to the community through Be The Change
- Offer space for community organization to meet, including local support groups.
- The hospital has a Mobile Integrated Health department.

MCH also offers a robust system of volunteer programs and services to engage its stakeholders, to bring people together in civic action, and to promote the wellbeing and success of its community. Volunteer Services responds to department requests for volunteer help and works with the requesting department to develop a written service description, if necessary. Every effort is made to fill the position(s) with qualified volunteers. Volunteers assist with all levels of the Hospital's operations, including materials management, blood drives, emergency department assistance, general support and maintenance, recycling, shuttle and transportation, and other related services.

Lastly, the Hospital remains committed to improving not just the physical health but also the quality of life in its community. The Monadnock Region has a rich and vibrant history of support for the Arts. Here at Monadnock Community Hospital, we are in a unique position to help connect the world of healing and the world of art. Our intent is to host a venue for artists to exhibit in varied mediums, resulting in a visual experience which

Part VI Supplemental Information (Continuation)

promotes the proven healing and restorative benefits of beautiful artwork. Our vision is to eventually develop a permanent art collection for the hospital which will be enjoyed for generations by patients and visitors to our campus. Our Healing Arts Committee is comprised of individuals representing a strong interest in the Healing Arts initiative and has convened to create and develop all aspects of the MCH Healing Arts Gallery as an established and vital venue going forward. The gallery holds three shows per year displaying work from all local artists.

Part III, Line 2:

The amount reported on Part III, Line 2 was derived by applying the cost to charge ratio against the amount of bad debt expense reported on Form 990, Part IX, Line 25, Column (A) (\$7,623,534). Accounts written off to bad debt include gross charges being written off less any payments received against those charges. Any cash collected on accounts previously written off is included as an offset to bad debt expense as recoveries of bad debt. The Hospital calculates the ratio in a manner consistent with Worksheet 2, patient care charges to patient care expenses, to arrive at the ratio of costs to charges.

Part III, Line 3:

The estimated amount of charity care included in bad debt expense is based on the number of applications for charity care denied due to lack of complete documentation against the average charity care write off at cost per qualified patient. We believe the amount is minimal based on our extensive efforts to educate patients and staff about our various payment plans and financial assistance programs to ensure that patients who qualify for any of our programs utilize them. Depending on the specific

Schedule H (Form 990)

Part VI Supplemental Information (Continuation)

circumstances, a patient may be eligible for charity care, discounted care, payment programs, or a combination of the above. Due to these efforts, we believe that amounts written off to bad debt that could qualify as charity care is minimal.

Part III, Line 4:

Please see footnote 1 on page 8 of the attached audited financial statements.

Part III, Line 8:

Medicare allowable cost of care was calculated from the Medicare cost report for the fiscal year ending September 30, 2024.

Medical services are provided to patients with Medicare coverage regardless of whether or not a surplus or deficit is realized. Providing Medicare services promotes access to healthcare services which are vitally needed by our community. The Medicare cost report is completed based on the rules and regulations set forth by the Centers for Medicare and Medicaid Services.

As a critical access hospital, Monadnock Community Hospital is reimbursed at 101% of Medicare allowable cost. This greater than 100% reimbursement rate may from time-to-time result in reported revenue received from Medicare in excess of total Medicare allowable costs.

Part III, Line 9b:

As of September 30, 2011, Monadnock Community Hospital has a written credit and collection policy. Described within that policy are the

Part VI Supplemental Information (Continuation)

collection practices and bad debt processes that are followed for patients who are known to qualify for charity care or financial assistance. The Organization utilizes a Financial Assistance Program (FAP) file which is maintained by the Patient Financial Assistance Program of MCH. Internal FAP insurance plans are applied to those accounts and related discount amounts are adjusted in the billing system. Remaining balances are expected to be paid in full by the patient. Payment plans may be requested by the patient and are established by the Patient Financial Services staff according to established criteria. Accounts are annotated to reflect payment arrangements. During bad debt processing, designated staff evaluate accounts listed as collection review for potential bad debt write off. This process includes an examination of account history for indication of FAP application.

Part VI, Line 2:

Monadnock Community Hospital (MCH) conducted a Community Health Needs Assessment (CHNA) to gather input from patients, community organizations, and staff. Participants shared perspectives on local health needs, helped evaluate data, and provided guidance throughout the process. Their collective knowledge shaped the assessment and its community impact.

As required by the Affordable Care Act, non-profit hospitals must complete a CHNA every three years. The goal of MCH's CHNA is to identify and prioritize community health needs. This assessment will serve as a foundation for analyzing population health, refining outreach, fostering collaboration, and enhancing community health initiatives while meeting IRS requirements.

Part VI Supplemental Information (Continuation)

In practical terms, the CHNA provides a research-based platform to guide hospital efforts, allowing MCH to address the most pressing health needs and make a meaningful impact.

The major strength of MCH is found in the ability of our physicians and staff to offer extensive services utilizing state-of-the-art technology, while maintaining the personalized care of a community hospital. MCH is a 25-bed Critical Access Hospital offering Medical, Surgical and Intensive Care; Obstetrics; Pediatrics; and Mental Health services. In addition, a wide variety of outpatient services are available, including Pulmonary, Cardiac and Physical Rehabilitation; 24-hour Emergency Care; a fully equipped laboratory; and an extensive Radiology department. MCH is fortunate to have strong leadership and a dedicated community that allows us to meet the ever-changing requirements of today's healthcare environment. As that environment changes, MCH is also committed to changing and providing the communities we serve with appropriate and innovative programs.

The top ways respondents find out about health care are through a physician or other healthcare worker (50.0%), a hospital's website (34.9%), medical websites including WebMD or Mayo Clinic (34.1%), and/or via word of mouth from friends or relatives (28.2%).

MCH also utilizes secondary data resources, such as income, education, demographics, geographic location, and employment data to evaluate and estimate its community's access to care, healthcare literacy, and general wellbeing.

Part VI Supplemental Information (Continuation)

The MCH CHNA Leadership Group worked to prioritize 33 community health-related needs, as identified in the primary and secondary research phases of the CHNA process. Based on the results of the Modified Delphi Technique, the ten highest priority community health-related needs include the following:

1. Mental health services for children
2. Mental health crisis care services
3. Urgent care and walk-in clinics
4. Doctors and others to provide primary care to adults and families
5. Mental health services for adults
6. Workforce development to help recruit and retain healthcare workforce
7. Public transportation (not necessarily for medical care)
8. Affordable housing
9. School and hospital collaboration to identify and care for students with medical or mental health needs
10. Economic development - job creation and training

At a higher level, the top ten needs can be categorized into four groups:

- Mental health care
- Urgent care
- Access to primary care (i.e., more primary care providers and school / hospital collaboration)
- Social and community-based issues (e.g., economic development issues, housing, public transportation).

Though not explicit in the prioritization survey, community leaders also include "Quality, affordable childcare" as a higher-priority community need.

Part VI Supplemental Information (Continuation)

MCH currently addresses all, or most, of the community needs identified in the CHNA in some way. For each of the top 10 needs identified in the CHNA, MCH examined its current programs, outreach efforts and collaborations, as well as consideration for new initiatives such that each of the needs was assigned to one of the following groups:

- Needs that are not part of MCH's purview (e.g., better addressed by other organizations). In this case, MCH will support and advocate for addressing the need but are not able to address the need directly.

- Needs that MCH will address through collaboration with community partners.

- Needs for which MCH will enhance existing programs or establish new ones. The hospital has current activities that may be able to be modified or expanded to address the community health need, or newly created activities or initiatives may be required to do so.

Part VI, Line 3:

MCH is committed to providing quality healthcare to anyone in need of services, regardless of ability to pay. We understand patients may not have the finances to pay for their healthcare services and medications, and do not want this to prevent anyone from receiving necessary treatment. As part of the Hospital's mission to the communities we serve, we have developed programs to help meet the needs of our patients who meet income eligibility. Through our Financial Assistance and Medication Assistance Programs, we have been providing financial assistance for many years to those who qualify. We reach out to our patients in many different ways to ensure that they are aware that help is available and to guide them

Part VI Supplemental Information (Continuation)

through the process. Brochures and signage are posted in high traffic areas and all employees of MCH are informed about the Financial Assistance Program during orientation. When a patient goes through the registration process at the Hospital the staff are trained to inform uninsured or underinsured patients about the Monadnock Community Hospital Financial Assistance program and that there is assistance available within the Hospital to help with the application process. In addition, any time a patient calls customer service, the representative is trained to help identify and offer support to patients who may require financial assistance. Patients may qualify for free care, discounted care, payment plans or a combination of the above. Resources are also provided in applying to federal and state programs for those who qualify.

Part VI, Line 4:

Monadnock Community Hospital is a 25-bed acute care facility serving a geographically distinctive market in the Greater Monadnock region of New Hampshire, whose population of 38,371 includes 13 towns in Cheshire and Hillsborough counties.

The Social Vulnerability Index (SVI) was developed by the U.S. Centers for Disease Control and Prevention as a metric for analyzing population data to identify vulnerable populations. The SVI may be used to rank overall population well-being and mobility relative to county and state QA data. The SVI can also be used to determine the most vulnerable populations during disaster preparedness and public health emergencies, including pandemics.

The Hospital's most recent CHNA indicates the following findings from the

Schedule H (Form 990)

Part VI Supplemental Information (Continuation)

SVI:

- The Monadnock service area is defined by its high senior citizen population. 20% of Monadnock service area residents are age 65 and over, a slightly higher percentage than the state (19%) and county (16.3%) average.

- Median incomes are strong in the Monadnock service area (\$92,476), and poverty rates are slightly lower (5.4%) than the Hillsborough County average (6.9%). By town, high poverty rates are noteworthy in Temple (13%), Dublin (9.8%), Greenfield (8.1%), Greenville (7.8%), Frankestown (7.7%). Poverty rates are low in Hancock (3.3%), New Ipswich (3.4%), and Peterborough (3.2%).

- While Hillsborough County experiences higher population diversity compared with the New Hampshire average, which is not reflected in the Monadnock service area. Just 8.7% of the service area population identifies as an ethnic minority, well below county (18.1%) and state (11.7%) averages.

- Youth (i.e., age 17 or younger) make up 20.6% of the Monadnock service area population similar to the county average (20.0%) and slightly higher than the state average (18.6%).

Part VI, Line 5:

Monadnock Community Hospital is a critical access hospital located in the Monadnock Region of NH. Our mission is to improve the health and well-being of our community. The Hospital is served by a board of trustees consisting of local citizens active in their community and its organizations. The majority of the board is not employed by the Hospital and consists of local community and business representatives as well as medical staff. Each year, MCH seeks to make the Monadnock Region a

Part VI Supplemental Information (Continuation)

healthier place to live by identifying new and changing healthcare needs, then developing a strategy to address some of the most pressing issues. In addition, no one is turned away who is in need of medical care. Our mission is to provide health care for everyone in our community, regardless of their ability to pay. The Hospital is committed to giving back to the community to the greatest extent possible. Monadnock Community Hospital supports thousands of individuals and families with free or reduced-fee services and programs. Our Financial Assistance Program administered by the Social Services Department helps families and individuals in need with access to health care and other available community services such as catastrophic care, fuel assistance, meals on wheels, food banks, and visiting nurses.

Other examples of the Hospital's effort to reach our patients beyond traditional hospital services include access to free or reduced cost medications through our Medication Assistance program; training for community agencies such as local volunteer fire and rescue personnel; offering prevention and wellness education including nutrition, smoking cessation and dealing with stress; providing regular community seminars regarding timely health topics; screenings and clinics for important health issues such as breast cancer; offer behavioral health (substance use & mental health) trainings to the community through Be The Change. These are just a few of the many areas where we are reaching out to others to assure they are cared for well.

Part VI, Line 6:

GraniteOne Health was a non-profit, New Hampshire-based healthcare system consisting of Catholic Medical Center (CMC) in Manchester, Huggins

Hospital (HH) in Wolfeboro, and Monadnock Community Hospital (MCH) in Peterborough. GraniteOne Health drew on the resources and expertise of these strong, trusted hospitals to enhance collaboration, strengthen clinical partnerships and meet the health needs of the communities by providing greater access to high-quality care and a seamless patient experience.

However, On June 16, 2023, the parties submitted a Joint Notice to the Director of Charitable Trusts pursuant to New Hampshire RSA 7:19-b to the State of New Hampshire and received the Director of Charitable Trusts no action report on December 1, 2023, clearing the way for the parties to complete the disaffiliation. The parties' respective boards each approved changes to their governing documents to unwind the reserved powers and dissolve GraniteOne. On May 30, 2024, the parties filed amendments to their respective governing documents with the New Hampshire Secretary of State as well as the Statement of Dissolution of GraniteOne to complete the wind-down requirements of the GraniteOne system.

Accordingly, as of the end of the period covered by this Form 990, Monadnock Community Hospital is no longer part of this Affiliated Health Care System, though the Hospital was a member of this System at the beginning and through and a portion of this tax year.

During the fiscal year ending September 30, 2024, the Hospital made contributions to governmental entities and 501(c)(3) public charities located in the Hospital's geographic region.

The Hospital continued the Dr. Mark Luedke Memorial Scholarship Fund in memory of the Organization's former Radiology Medical Director. The fund is to support clinical education and certification for members of MCH's Radiology Department, and is disbursed with the input of the Director of

Part IV Supplemental Information

Radiology, the Chief Nursing Officer, and the VP of Human Resources.

The Hospital also continued the Dr. Herbert E. Flewelling Scholarship to honor the memory of Dr. Flewelling, who practiced both in Peterborough and Jaffrey. Scholarships are usually awarded each year to graduates of local area high schools. The scholarships are given to outstanding students who are furthering their education in the medical field. The actual cash award is made upon satisfactory completion of six months of education.

The Hospital also continued the Norma A. Houghton Nursing Scholarship to honor the memory of Norma A. Houghton, who devoted her profession to being an RN certified as a lactation consultant, and who served the birthing suite at the Hospital from 1977-2006. Scholarships are usually awarded each year to graduates of local area high schools. The scholarships are given to outstanding students who are furthering their education in the nursing field.

The Hospital also continued the Peter L. Gosline Employee Education Scholarship Fund to honor Peter Gosline, the president and CEO of the Hospital from 1998 to 2014. The Scholarship provides financial assistance to eligible employees pursuing higher education and skills development within health services professions.

Form 990, Part III, Line 3, Changes in Program Services:

On December 30, 2016, the Hospital became affiliated with Catholic Medical Center (CMC), a 330-bed acute care hospital in Manchester, New Hampshire, and Huggins Hospital (HH), a 25-bed critical access hospital in Wolfeboro, New Hampshire, through the formation of a common parent, GraniteOne Health (GraniteOne). GraniteOne is a New Hampshire voluntary corporation that is recognized as being a Section 501(c)(3) tax-exempt and "supporting organization" within the meaning of Section 509(a)(3).

However, pursuant to the Affiliation Agreement that formed GraniteOne, the CMC, HH and MCH each had a right, after two years of participation in GraniteOne, to evaluate whether they would continue participation in the system. Upon review, each participant within GraniteOne concluded it was best to withdraw from GraniteOne and subsequently provided the required notice on October 28, 2022. On June 16, 2023, the parties submitted a Joint Notice to the Director of Charitable Trusts pursuant to New Hampshire RSA 7:19-b to the State of New Hampshire and received the Director of Charitable Trusts no action report on December 1, 2023, clearing the way for the parties to complete the disaffiliation. The parties' respective boards each approved changes to their governing documents to unwind the reserved powers and dissolve GraniteOne. On May 30, 2024, the parties filed amendments to their respective governing documents with the New Hampshire Secretary of State as well as the Statement of Dissolution of GraniteOne to complete the wind-down requirements of the GraniteOne system.

During the year, there were 13,400 visits to the ER.

Physician Practices - Family health services, programs, and education are integral components of healthcare at MCH. Inpatient and outpatient primary care includes: medical, surgical, psychological and specialist services, provided by physicians and mid-level practitioners. These are located at the Hospital and its four satellite practices located in Antrim, Jaffrey, New Ipswich, and Rindge. During the year, 58,818 primary care office visits were recorded.

Surgical Services - Includes same day and short-term inpatient surgery. MCH provides surgery in the areas of orthopaedics, general surgery, OB/GYN, ophthalmology, urology, ENT, and podiatry. In addition, the Hospital offers some non-surgical procedures including colonoscopies, gastroscopies, and pain management injections. During the fiscal year, 3,461 procedures were performed.

Radiology and Diagnostics - MCH provides advanced radiological technology and extensive imaging services including: bone density, MRI, CT, nuclear medicine, ultrasound, mammography, and other diagnostic procedures, both inpatient and outpatient. During the fiscal year, 34,644 exams were performed.

Rehabilitation Services - Additionally, MCH serves the people of the Monadnock Region through its medical rehabilitation and fitness services. MCH offers rehabilitation programs for cardiac and diabetic rehabilitation, along with pulmonary fitness, which feature educational and exercise components. We also provide physical and occupational therapy, as well as speech rehabilitation. During the fiscal year, 73,151 procedures were recorded for these services.

Monadnock Community Hospital's Financial Grant Program provides assistance with hospital and/or physician bills for qualifying patients. In fiscal year 2024, the Organization recorded \$891,000 in charges foregone based on established rates. The estimated cost incurred to provide these services was \$. In addition, Monadnock Community Hospital provided other services to the community at no cost or reduced cost, such as screenings and clinics. The cost of providing these services was approximately \$17,260,000 in fiscal year 2024.

Form 990, Part VI, Section A, line 2:

James Callahan, Esq., and Michael Shea, who each served on the Hospital's Board during this tax year, share a business relationship.

Form 990, Part VI, Section A, line 4:

During the period covered by this Form 990 tax return, Monadnock Community Hospital ("MCH") adopted the following significant changes to its governing bylaws:

1. Effective February 2024, MCH is no longer part of the GraniteOne Health

hospital system. Previously, GraniteOne Health was the sole member of MCH.

2. Previously, as the sole member, GraniteOne Health was able to exercise certain powers and responsibilities over MCH's governance and operations. Upon its dissociation from GraniteOne Health, the responsibilities and duties for all MCH governance and Board composition decisions became vested with the MCH Board of Trustees, and GraniteOne Health ceased to have influence over such duties within MCH.

3. The former bylaws previously allowed that the GraniteOne Health CEO would be an ex-officio of the MCH Board of Trustees. The amended and newly adopted bylaws removed such privileges from the GraniteOne Health CEO. Additionally, the newly adopted bylaws update the terms for ex-officio trustees in general, stating that there shall now be allowed two members of the active MCH Medical Staff to be ex-officio Trustees (previously one was allowed), and that the Monadnock Health Partners Medical Director is not necessarily by default treated as such an ex-officio Trustee of the Board (previously, such privileges were given to the Medical Director).

Form 990, Part VI, Section B, line 11b:

The Hospital's Form 990 is prepared with assistance by an independent public accounting firm. A draft of the Form 990 is initially reviewed in detail by key finance employees. Thereafter, the draft is made available to the full board for review and comment prior to filing with the IRS.

with the conflict of interest policy. Said individuals are required to complete a new conflict of interest disclosure on an annual basis. Any conflicts of interest noted are reviewed by the Chair of the Board, in conjunction with the Corporate Compliance Officer. If the conflict of interest appears to meet the policy definitions requiring full Board review, the Chair of the Board takes this to the full Board meeting, and it is discussed, and appropriate action is taken (in compliance with state and federal requirements). The conflict of interest statement requires signatories to inform the Hospital of any conflict of interest that occurs at any time throughout the year. If a conflict of interest arises during the year, it is reviewed by the Compliance Officer, and if necessary, is taken to the Board Chair/Board. The Compliance Officer confers with legal counsel with regard to conflicts of interest, if there is any question regarding the potential conflict.

Form 990, Part VI, Section B, Line 15:

The Organization has a written executive compensation policy and procedure. Under this policy, the Compensation Committee, comprised of delegated representatives of the Board of Trustees, has the power and responsibility to determine the Hospital's approach to executive compensation and review the performance of the CEO. The Compensation Committee has the responsibility to set, monitor and review the base salary of the CEO. The Committee maintains minutes of sessions and final recommendations and determinations in accordance with the Board of Trustee guidelines. Annually, market data is reviewed by the Committee to determine the appropriate salary for the Hospital's CEO based upon identified standards. At the end of the time period, the Committee reviews to what extent stated goals were met and recommends an amount for the variable pay award to be

Form 990, Part VI, Section C, Line 19:

Monadnock Community Hospital files audited financial statements annually with the New Hampshire Attorney General's Charitable Trust Unit and informs the Director of Charitable Trusts of pecuniary benefit transactions that have occurred between MCH and a board member or officer. Notices of such transactions of \$5,000 or more are also published in the local newspaper in accordance with NH RSA 7:19-A, II(D). Current copies of the bylaws, conflict of interest policy and Form 990 are on file with the Charitable Trust Unit.

The Hospital also makes its governing documents, conflict of interest policy, and financial statements available to the public upon request.

Form 990, Part VII, Section A, Column D: Director Compensation

The 2023 compensation reported for Terrence McNamara, DO, as paid by Monadnock Community Hospital, was paid in return for medical services provided by Terrence McNamara as an employee of the Hospital. Form 990, Schedule R, Parts II and IV:

Many of the entities listed as related organizations of Monadnock Community Hospital ("MCH") on this Form 990, Schedule R, are related to MCH through shared memberships and associations with GraniteOne Health.

However, during the period covered by this Form 990, MCH ended its relationship with GraniteOne Health, and GraniteOne Health ceased to be the sole member of MCH. As a result, as of the end of this tax year ending September 30, 2024, are, in fact, no longer connected or related to MCH. In accordance with IRS Instructions for the Form 990 and Schedule R, these entities have still been disclosed as related organizations, though the dissociation occurred in February 2024.

INDEPENDENT AUDITORS' REPORT

Board of Trustees
The Monadnock Community Hospital

Opinion

We have audited the financial statements of The Monadnock Community Hospital (the Hospital), which comprise the balance sheets as of September 30, 2024 and 2023, the related statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Hospital as of September 30, 2024 and 2023, and the results of its operations, changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Hospital and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Hospital's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Hospital's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Hospital's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

THE MONADNOCK COMMUNITY HOSPITAL

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

1. **Description of Organization and Summary of Significant Accounting Policies**

Organization

The Monadnock Community Hospital (the Hospital) is a not-for-profit, acute care hospital located in Peterborough, New Hampshire.

On December 30, 2016, the Hospital became affiliated with Catholic Medical Center (CMC), a 330-bed acute care hospital in Manchester, New Hampshire, and Huggins Hospital (HH), a 25-bed critical access hospital in Wolfeboro, New Hampshire, through the formation of a common parent, GraniteOne Health (GraniteOne). GraniteOne is a New Hampshire voluntary corporation that is recognized as being a Section 501(c)(3) tax-exempt and "supporting organization" within the meaning of Section 509(a)(3) of the Internal Revenue Code of 1986, as amended (the Code). GraniteOne serves as the sole member of the Hospital and HH and co-member of CMC, along with CMC Healthcare System, Inc. GraniteOne is governed by a thirteen-member Board of Trustees appointed by each of the respective hospitals within the GraniteOne system. The GraniteOne Board of Trustees governs the GraniteOne system through the existence and execution of reserved powers to approve certain actions by the Boards of Trustees of each of the hospitals. During fiscal year 2023, the Board of Trustees of the three GraniteOne hospitals and the Board of GraniteOne voted and approved withdrawal without cause from GraniteOne as permitted by the affiliation agreement. On June 16, 2023, HH and the Hospital submitted to the New Hampshire Department of Justice, Charitable Trusts Unit (CTU) a joint notice of a proposed change in control pursuant to RSA 7:19-b and received the Director of Charitable Trusts no action report on December 1, 2023 clearing the way for the parties to complete the disaffiliation. The parties' respective boards each approved changes to their governing documents to unwind the reserved powers and dissolve GraniteOne. On May 30, 2024, the parties filed amendments to their respective governing documents with the New Hampshire Secretary of State as well as the Statement of Dissolution of GraniteOne to complete the wind-down requirements of the GraniteOne system.

The accompanying financial statements do not include the accounts and activity of GraniteOne, HH and CMC.

Basis of Accounting

The accompanying financial statements have been prepared on an accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid debt instruments with an original maturity of three months or less at the date of purchase, excluding donor-restricted amounts and assets whose use is limited by Board designation or other arrangements under trust agreements. The Hospital maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Hospital has not experienced any losses on such accounts.

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Accounts Receivable

Patient accounts receivable for which the unconditional right to payment exists are receivables if the right to consideration is unconditional and only the passage of time is required before payment of that consideration is due. Accounts receivable at September 30, 2024 and 2023 reflect the fact that any estimated uncollectible amounts are generally considered implicit price concessions that are a direct reduction to accounts receivable rather than allowance for doubtful accounts. At September 30, 2024 and 2023, estimated implicit price concessions of \$8,262,100 and \$7,280,897, respectively, have been recorded as reductions to accounts receivable balances to enable the Hospital to record revenues and accounts receivable at the estimated amounts expected to be collected.

Accounts receivable as of September 30, 2024, 2023 and 2022 are \$10,613,339, \$8,515,009 and \$6,450,584, respectively.

Inventories

Inventories of supplies and pharmaceuticals are carried at the lower of cost or net realizable value. Costs are determined on the first-in, first-out (FIFO) basis.

Assets Limited as to Use

Assets limited as to use include assets held by trustees under indenture agreements, designated assets set aside by the Board of Trustees, over which the Board retains control and may, at its discretion, subsequently use for other purposes, and donor-restricted investments.

Investments and Investment Income

Investments are carried at fair value in the accompanying balance sheets. See note 16 for further discussion regarding fair value measurements. Investment income (including realized gains and losses on investments, interest and dividends) and the net change in unrealized gains and losses on equity securities, are included in the excess of revenue, support and nonoperating gains over expenses in the accompanying statements of operations, unless the income or loss is restricted by donor or law. The change in net unrealized gains and losses on debt securities is reported as a separate component of the change in net assets without donor restrictions, except declines that are determined by management to be other than temporary, which are reported as an impairment charge (included in the excess of revenue, support and nonoperating gains over expenses). No such losses were recorded in 2024 or 2023 .

Property and Equipment

Property and equipment, including the medical office building, is stated at cost or, if donated, at fair value at the date of donation, less accumulated depreciation. The Hospital's policy is to capitalize expenditures for major improvements and charge maintenance and repairs currently for expenditures which do not extend the life of the related assets. When assets are retired or disposed of, the assets and related accumulated depreciation are eliminated from the accounts and any resulting gain or loss is reflected in the accompanying statements of operations.

THE MONADNOCK COMMUNITY HOSPITAL

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Depreciation is computed using the straight-line method in a manner intended to amortize the cost of the assets over their estimated useful lives. Costs of construction and acquisition of assets not yet placed in service are included in capital improvements and no depreciation expense is recorded.

Bond Issuance Costs

Bond issuance costs are being amortized to interest expense using the straight-line method, which approximates the effective interest method, over the life of the respective bonds. Bond issuance costs are presented as a reduction of long-term debt.

Earned Time

The Hospital provides and accrues for paid time off for vacation, holiday and sick leave under an earned time system for nonexempt employees. Hours earned, but not used, are capped and vested with the employee.

Net Assets With Donor Restrictions

Gifts are reported as restricted support if they are received with donor stipulations that limit the use of donated assets. Donated investments, supplies and equipment are reported at fair value at the date of receipt. Unconditional promises to give cash and other assets are reported at fair value at the date of the receipt of the promise. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the statement of operations as either net assets released from restrictions (for noncapital related items) or as net assets released from restrictions to purchase property and equipment (capital related items). Some net assets with donor restrictions have been restricted by donors to be maintained by the Hospital in perpetuity.

Except for contributions related to capital purchases, donor-restricted contributions whose restrictions are met within the same year as received are reported as contributions within net assets without donor restrictions in the accompanying financial statements.

Endowment, Investment and Spending Policies

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), the Hospital considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

THE MONADNOCK COMMUNITY HOSPITAL

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

The Hospital's investment policies provide guidance for the prudent and skillful management of invested assets with the objective of preserving capital and maximizing returns. The invested assets include endowment, specific purpose and board designated funds.

Endowment funds are identified as perpetual in nature, intended to provide support for current or future operations and other purposes identified by the donor. These funds are managed with disciplined longer-term investment objectives and strategies designed to accommodate relevant, reasonable, or probable events. The Finance Committee of the Board of Trustees of the Hospital determines the method to be used to appropriate endowment funds for expenditure. As a guideline, approximately 4% of the total value of the three year quarterly average of available funds is intended to be distributed annually. The Finance Committee has the ability to distribute up to 5.99% of the total market value of the three-year quarterly average of available funds. Distributions of 6% or over must be approved by a vote of the Board of Trustees. The corresponding calculated spending allocations are distributed in equal quarterly installments from the current net total or accumulated net total investment returns for individual endowment funds. In establishing this policy, the Board of Trustees considered the expected long term rate of return on its endowment.

Specific purpose funds are temporary in nature, restricted as to time or purpose as identified by the donor or grantor. These funds have various intermediate/long-term time horizons associated with specific identified spending objectives.

Board designated funds have various intermediate/long-term time horizons associated with specific spending objectives as determined by the Board of Trustees. Assets limited as to use at September 30, 2024 and 2023 includes board designated funds of \$103,772,192 and \$82,130,250, respectively, that are subject to board authorization before being spent.

Management of these assets is to increase, with minimum risk, the inflation adjusted principal and income of the endowment funds over the long term. The Hospital targets a diversified asset allocation that places emphasis on achieving its long-term return objectives within prudent risk constraints.

Excess of Revenue, Support and Nonoperating Gains Over Expenses

The accompanying statements of operations include excess of revenue, support and nonoperating gains over expenses. Changes in net assets without donor restrictions which are excluded from excess of revenue, support and nonoperating gains over expenses, consistent with industry practice, include net assets released from restrictions used for the purposes of acquiring long-lived assets, net unrealized gains/losses on debt investments and the changes in the fair value of interest rate swap agreements deemed to be effective hedges.

THE MONADNOCK COMMUNITY HOSPITAL

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Patient Service Revenue

Revenues generally relate to contracts with patients in which the Hospital's performance obligations are to provide health care services to patients. Revenues are recorded during the period obligations to provide health care services are satisfied. Performance obligations for inpatient services are generally satisfied over a period of days. Performance obligations for outpatient services are generally satisfied over a period of less than one day. The contractual relationships with patients, in most cases, also involve a third-party payor (Medicare, Medicaid, managed care health plans and commercial insurance companies, including plans offered through the health insurance exchanges) and the transaction prices for the services provided are dependent upon the terms provided by Medicare and Medicaid or negotiated with managed care health plans and commercial insurance companies, the third-party payors. The payment arrangements with third-party payors for the services provided to related patients typically specify payments at amounts less than standard charges. Medicare generally pays for inpatient and outpatient services under a cost reimbursement methodology. Services provided to patients having Medicaid coverage are generally paid on a prospectively determined fixed price depending on the diagnosis for inpatient services and under a cost reimbursement methodology for outpatient services. Agreements with commercial insurance carriers, managed care and preferred provider organizations generally provide for payments based upon predetermined rates per diagnosis, per diem rates or discounted fee-for-service rates. Management continually reviews the revenue recognition process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

The collection of outstanding receivables for Medicare, Medicaid, managed care payors, other third-party payors and patients is the Hospital's primary source of cash and is critical to its operating performance. The primary collection risks relate to uninsured patient accounts, including patient accounts for which the primary insurance carrier has paid the amounts covered by the applicable agreement, but patient responsibility amounts (deductibles and copayments) remain outstanding. Implicit price concessions relate primarily to amounts due directly from patients. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the aging of those accounts. Accounts are written off when all reasonable internal and external collection efforts have been performed. The estimates for implicit price concessions are based upon management's assessment of historical write-offs and expected net collections, business and economic conditions, trends in federal, state and private employer health care coverage and other collection indicators. Management relies on the results of detailed reviews of historical write-offs and collections at facilities that represent a majority of hospital revenues and accounts receivable (the "hindsight analysis") as a primary source of information in estimating the collectibility of accounts receivable. Management performs the hindsight analysis regularly, utilizing rolling twelve-months accounts receivable collection and write-off data. Management believes its regular updates to the estimated implicit price concession amounts provides reasonable estimates of revenues and valuations of accounts receivable. These routine, regular changes in estimates have not resulted in material adjustments to the valuations of accounts receivable or period-to-period comparisons of operations.

THE MONADNOCK COMMUNITY HOSPITAL

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

The Hospital receives payment for Medicare and Medicaid inpatient and outpatient services on a reasonable cost basis which are settled with retroactive adjustments upon completion and audit of related cost reports. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known. For the years ended September 30, 2024 and 2023, patient service revenue in the accompanying statements of operations increased by approximately \$5.2 million and \$3.9 million, respectively, due to actual settlements and changes in assumptions underlying estimated future third-party settlements.

Revenues from the Medicare and Medicaid programs accounted for approximately 69% and 6% and 64% and 9% of the Hospital's patient service revenue for the years ended September 30, 2024 and 2023, respectively.

Financial Assistance Program

The Hospital accepts all patients regardless of their ability to pay. A patient is classified as a financial assistance patient by reference to certain established policies of the Hospital. Essentially, these policies define the financial assistance program as those services for which no payment is anticipated. In assessing a patient's inability to pay, the Hospital utilizes federally established poverty guidelines. The financial assistance program is measured based on the Hospital's established rates. These charges are not included in patient service revenue. The costs and expenses incurred in providing these services are included in operating expenses. The cost is estimated by utilizing a ratio of cost to gross charges applied to the gross uncompensated charges associated with providing charity care. See note 15.

Self-Insurance Programs

The Hospital self-insures its employee health and dental benefits and has estimated and accrued amounts to meet its expected obligations under the program. The plan is administered by an insurance company which assists in determining the current funding requirements of participants under the terms of the plan and the liability for claims and assessments that would be payable at any given point in time. The Hospital recognizes revenue for services provided to employees of the Hospital during the year. Stop loss insurance coverage is in effect which mitigates the Hospital's exposure to loss on an individual and aggregate basis. Estimated unpaid claims, and those claims incurred but not reported at September 30, 2024 and 2023, have been recorded as a liability of approximately \$957,000 and \$639,000, respectively, within accrued payroll and related accounts in the accompanying balance sheets.

Functional Expense Allocation

The costs of providing program services and other activities have been summarized on a functional basis in note 14. Accordingly, costs have been allocated among program services and supporting services benefitted.

Income Taxes

The Hospital is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Management evaluated the Hospital's tax positions and concluded the Hospital has maintained its tax-exempt status, does not have any significant unrelated business income and had taken no uncertain tax positions that require adjustment to or disclosure in the accompanying financial statements.

THE MONADNOCK COMMUNITY HOSPITAL

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Advertising Costs

The Hospital expenses advertising costs as incurred, and such costs totaled approximately \$101,000 and \$109,000 for the years ended September 30, 2024 and 2023, respectively.

Derivatives and Hedging Activities

The interest rate swap agreements held by the Hospital meet the definition of derivative instruments and, consequently, the Hospital is required to record as an asset or liability the fair value of the interest rate swap agreements described in note 7. The Hospital is exposed to repayment loss equal to any net amounts receivable under the swap agreements (not the notional amounts) in the event of nonperformance of the other parties to the swap agreements. However, the Hospital does not anticipate nonperformance and does not obtain collateral from the other parties.

Related Party Activity

The Hospital has engaged in various transactions with GraniteOne and CMC. The Hospital recognized revenue from these related parties of approximately \$200,000 and \$302,000 for the period from October 1, 2023 through May 31, 2024 (the date of dissolution of the GraniteOne system as previously discussed) and for the year ended September 30, 2023, respectively, which amounts are reflected in other revenue in the accompanying statements of operations. The Hospital also incurred expenses to these related parties of approximately \$1.9 million and \$2.9 million for the period from October 1, 2023 through May 31, 2024 (the date of dissolution of the GraniteOne system as previously discussed) and for the year ended September 30, 2023, respectively, which is reflected within operating expenses. These transactions resulted in a net amount due to related parties of approximately \$667,000 at September 30, 2023, which amount is reflected within accounts payable and accrued expenses in the accompanying 2023 balance sheet.

Leases

At the inception of an arrangement, the Hospital determines whether the arrangement is, or contains, a lease based on the unique facts and circumstances present in the arrangement. A lease is a contract, or part of a contract, that conveys the right to control the use of identified property or equipment (an identified asset) for a period of time in exchange for consideration. The Hospital determines if the contract conveys the right to control the use of an identified asset for a period of time. The Hospital assesses throughout the period of use whether the Hospital has both of the following: (1) the right to obtain substantially all of the economic benefits from use of the identified asset, and (2) the right to direct the use of the identified asset. This determination is reassessed if the terms of the contract are changed.

Leases are classified as operating or finance leases based on the terms of the lease agreement and certain characteristics of the identified asset. Leases with a term greater than one year are recognized on the balance sheet as right-of-use assets and lease obligations, as applicable.

The interest rate implicit in lease contracts is typically not readily determinable. As a result, the Hospital has elected to utilize a risk-free rate as the rate to discount lease payments.

THE MONADNOCK COMMUNITY HOSPITAL

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Lease liabilities are initially recorded based on the present value of lease payments over the expected remaining lease term. Lease payments are comprised of fixed and in-substance fixed contract consideration. The Hospital has made a policy election not to separate lease components, nonlease components, and noncomponents. The right-of-use asset is based on the lease liability, adjusted for certain items such as lease prepayments or lease incentives received. Finance lease assets are amortized on a straight-line basis, with interest costs reported separately, over the lesser of the useful life of the leased asset or lease term. Operating lease expense is recognized on a straight-line basis. Variable lease payments are expensed as incurred.

The Hospital assesses at the commencement of a lease any options to extend or terminate the lease agreement, and will include in the lease term any extensions or renewals which it determines it is reasonably certain to exercise. Assumptions made at the lease commencement date are re-evaluated upon the occurrence of certain events, including a lease modification. A lease modification results in a separate contract when the modification grants the lessee an additional right-of-use not included in the original lease and when lease payments increase commensurate with the standalone price for the additional right-of-use. When a lease modification results in a separate contract, it is accounted for in the same manner as a new lease.

Subsequent Events

Management has evaluated subsequent events occurring between the end of its fiscal year and January 23, 2025, the date the financial statements were available to be issued.

2. **Risks and Uncertainties**

On March 11, 2020, the World Health Organization declared the outbreak of coronavirus (COVID-19) a pandemic. The COVID-19 pandemic has significantly affected employees, patients, systems, communities and business operations, as well as the U.S. economy and financial markets. Since the declaration of the pandemic, the Hospital received approximately \$10.1 million related to the *Coronavirus Aid, Relief and Economic Security Act* (CARES Act) Provider Relief Funds (PRF), *American Rescue Plan Act* (ARPA) rural payments and the Governor's Office of Emergency Relief and Recovery (GOFERR) under the CARES Act. Distributions from the PRF, ARPA and GOFERR are not subject to repayment, provided the Hospital is able to attest to and comply with the terms and conditions of the funding, including demonstrating that the distributions received have been used for healthcare-related expenses or lost revenue attributable to COVID-19. Such payments are accounted for as government grants, and are recognized on a systematic and rational basis as other income once there is reasonable assurance that the applicable terms and conditions required to retain the funds will be met. Based on an analysis of the compliance and reporting requirements of the PRF, ARPA and GOFERR and the impact of the pandemic on operating results through September 30, 2023, the Hospital recognized approximately \$2.0 million related to PRF, ARPA and GOFERR, and these payments were recorded within other revenue in the accompanying statements of operations. The remaining funds were recognized within other revenue during previous years. There were no such amounts received or recognized during fiscal year 2024.

3. Estimated Third-Party Settlements

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare

The Hospital was granted critical access hospital (CAH) designation on December 27, 2004. As a result of this designation, the Hospital is entitled to cost-based reimbursement from Medicare for services provided to Medicare beneficiaries. Inpatient acute care services rendered to Medicare program beneficiaries are paid under a cost reimbursement methodology. Outpatient services are paid based on a combination of rate schedules and reimbursed cost. The Hospital is reimbursed for cost reimbursable items at an interim rate with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicare fiscal intermediary. As of the date of these financial statements, the Hospital's Medicare cost reports have been final settled through September 30, 2020.

Medicaid

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology subject to certain limitations. The Hospital is reimbursed at an interim rate with final settlement determined after submission of annual costs reported by the Hospital and audits thereof by the State of New Hampshire Division of Audit. As of the date of these financial statements, the Hospital's Medicaid cost reports have been final settled through September 30, 2020.

Anthem

Inpatient and outpatient services rendered to Anthem subscribers are reimbursed at submitted charges less a discount withholding or through a per diem or fee schedule. The amounts paid to the Hospital are not subject to any retroactive adjustments.

Other

The Hospital has also entered into payment agreements with certain commercial insurance carriers and health maintenance organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, per diems and discounts from established charges.

The Hospital has made a provision in the financial statements for estimated final settlements to be paid as a result of the retroactive provision for third-party reimbursement programs. Actual results could differ from those estimates.

Medicaid Enhancement Tax and Medicaid Disproportionate Share Funding

Under the State of New Hampshire's tax code, the State imposes a MET equal to 5.4% of net patient service revenue in State fiscal years 2024 and 2023, with certain exclusions. The amount of tax incurred by the Hospital for fiscal 2024 and 2023 was \$5,118,534 and \$4,678,470, respectively. The Hospital has accrued \$1,248,603 and \$1,124,481 in MET at September 30, 2024 and 2023, respectively, within accounts payable and accrued expenses in the accompanying balance sheets.

3. Estimated Third-Party Settlements (Continued)

In the fall of 2010, in order to remain in compliance with stated federal regulations, the State of New Hampshire adopted a new approach related to Medicaid disproportionate share funding (DSH) retroactive to July 1, 2010. Unlike the former funding method, the State's approach led to a payment that was not directly based on, and did not equate to, the level of tax imposed. As a result, the legislation created some level of losses at certain New Hampshire hospitals, while other hospitals realized gains. In 2024 and 2023, the Hospital recognized disproportionate share revenues (net of related reserves) totaling \$4,790,808 and \$5,880,181, respectively, in the accompanying statements of operations. Currently, the State of New Hampshire makes disproportionate share hospital payments to support up to 75% of the actual uncompensated care costs for New Hampshire's hospitals with critical access designation.

The Centers for Medicare and Medicaid Services (CMS) has completed audits of the State's program and the DSH payments made by the State from 2011 through 2020, the first years that those payments reflected the amount of uncompensated care provided by New Hampshire hospitals. It is possible that subsequent years will also be audited by CMS. The Hospital has recorded reserves to address its potential exposure based on the audit results to date or any future redistributions.

4. Concentration of Credit Risk

Financial instruments which subject the Hospital to credit risk consist of cash and cash equivalents, accounts receivable and investments. The risk with respect to cash equivalents is minimized by the Hospital's policy of investing in financial instruments with short-term maturities issued by highly rated financial institutions. Investments that exceeded 10% of investments include the Vanguard Total Stock Market Index Fund and the Vanguard total International Stock Index Fund as of September 30, 2024 and the Vanguard Total Stock Market Index Fund as of September 30, 2023.

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The Hospital's accounts receivable are primarily due from third-party payors. The mix of gross patient accounts receivable at September 30, 2024 and 2023 was as follows:

	<u>2024</u>	<u>2023</u>
Medicare	39%	32%
Medicaid	5	7
Anthem	10	10
Other third-party payors	19	24
Patients	<u>27</u>	<u>27</u>

5. Assets Limited as to Use and Restricted Funds

The composition of assets limited as to use at September 30, 2024 and 2023 is set forth in the following table. Investments are stated at fair value.

	<u>2024</u>	<u>2023</u>
Board designated, donor-restricted and long-term investments:		
Cash and cash equivalents	\$ 1,372,253	\$ 1,573,112
Marketable equity securities	62,322,881	47,596,101
Mutual funds	46,677,729	38,081,798
U.S. Treasury obligations	4,120,166	4,011,094
Interests in perpetual trusts	<u>6,791,711</u>	<u>5,568,874</u>
	<u>\$121,284,740</u>	<u>\$96,830,979</u>

Assets limited as to use are comprised of the following at September 30:

	<u>2024</u>	<u>2023</u>
Board designated for capital, working capital and community services	\$103,772,192	\$82,130,250
Donor-restricted	<u>17,512,548</u>	<u>14,700,729</u>
	<u>\$121,284,740</u>	<u>\$96,830,979</u>

As a result of bequests, the Hospital is the beneficiary of two trust funds, one of which is administered by an outside trustee and the other administered by the Hospital. The terms of the perpetual trusts require that income or a percentage of income be paid to the Hospital in perpetuity; however, distribution of principal is not permitted under the terms of the trusts. The amounts recorded in the accompanying balance sheets represent the fair values of the assets upon notification of the trusts' existence, which are adjusted annually to reflect the appreciation or depreciation in the fair value of the assets. Offsetting amounts are included in net assets with donor restrictions. Income distributed to the Hospital from these trusts is included in the accompanying statements of operations as investment income.

6. Property and Equipment

Property and equipment consists of the following at September 30:

	<u>2024</u>	<u>2023</u>
Land and land improvements	\$ 4,686,848	\$ 4,686,848
Building and building improvements	29,949,565	29,949,565

7. Long-Term Debt

Long-term debt consists of the following at September 30:

	<u>2024</u>	<u>2023</u>
New Hampshire Business Finance Authority (NHBFA) in conjunction with Revenue Bonds Series 2013 with variable rate interest, as amended and described below	\$20,551,113	\$21,265,883
Less current portion	<u>(747,144)</u>	<u>(714,684)</u>
	<u>\$19,803,969</u>	<u>\$20,551,199</u>

On January 1, 2013, the Hospital refinanced its existing 2007 Series Bonds outstanding in the amount of \$17,810,000 and its 2009 Series Bonds outstanding in the amount of \$9,424,908 through the issuance of \$27,240,000 in 2013 Series Bonds with NHBFA. The initial interest rate on the bonds through January 1, 2023 was a variable rate equal to 75% of the one-month LIBOR (London Interbank Offered Rate) plus 1.3125%. The final maturity of the bonds was January 1, 2043 and on January 1, 2028, the bonds were required to be remarketed upon a stipulated mandatory redemption.

On June 27, 2018, the 2013 Series Revenue Bonds with NHBFA were amended and restated. The original bonds were exchanged for amended bonds and the original bond issuance was cancelled. The amended 2013 Series Bonds with NHBFA were issued in the amount of \$24,584,872, which was the amount of the outstanding balance of the original 2013 Series Bonds at the time of closing. The initial interest rate on the amended bonds through July 1, 2028 is a variable rate equal to the sum of 81.5% of the one-month LIBOR plus 1.45%. The final maturity of the amended bonds remained January 1, 2043 and on January 1, 2028, the amended bonds must be remarketed upon a stipulated mandatory redemption. On June 1, 2023, the Hospital converted the underlying index used for the bonds from LIBOR to SOFR (Secured Overnight Financing Rate). The interest rate at September 30, 2024 was 5.42%. As part of this transaction, the Hospital also extended the tender date of the bonds to January 1, 2033.

The Hospital is also required to comply with certain financial and other covenants and has granted as security all gross receipts, together with all real and personal property, as defined. The amended Series 2013 Bonds require the same debt service payments as the original 2013 Series Bonds with payments ranging from \$408,605 to \$1,589,792 per year.

Concurrent with the 2007 NHBFA bond issuance, the Hospital executed an interest rate swap agreement to hedge its exposure to the volatility of interest payments on a portion of its variable rate Series 2007 Revenue Bonds. During 2013, the Series 2007 Revenue Bonds were refinanced through the issuance of Series 2013 Revenue Bonds, as previously discussed. All existing terms of the swap remained in effect. At September 30, 2024, an interest rate swap agreement was outstanding at a notional amount totaling approximately \$6.2 million. The swap agreement hedged the Hospital's interest exposure by effectively converting interest payments from variable rates to a fixed rate of 3.57%. The swap agreement, which expires in October 2033, is designated as a cash flow hedge of the underlying variable rate interest payments, and changes in the fair value of the swap agreement are reported as a change in net assets without donor restrictions. The swap agreement had a fair value of \$(347,520) and \$(166,942) as of September 30, 2024 and 2023, respectively.

7. Long-Term Debt (Continued)

Concurrent with the amended and restated 2013 Series Revenue Bonds, the Hospital executed an interest rate swap agreement effective July 1, 2018 to hedge its exposure to the volatility of interest payments on a portion of its variable rate on the amended and restated 2013 Series Revenue Bonds. At September 30, 2024, an interest rate swap agreement was outstanding at a notional amount totaling approximately \$11.9 million. The swap agreement hedges the Hospital's interest exposure by effectively converting interest payments from variable rates to a fixed rate of 2.64%. The swap agreement, which expires July 1, 2028, is designated as a cash flow hedge of the underlying variable interest payments, and changes in the fair value of the swap agreement are reported as a change in net assets without donor restrictions. The swap agreement had a fair value of \$53,584 and \$517,789 as of September 30, 2024 and 2023, respectively.

During the year, the Hospital pays or receives the difference between the fixed and variable rates applied to the notional amounts of the above interest rate swap agreements. During 2024 and 2023, such charges were \$(224,353) and \$27,165, respectively.

In connection with the amended and restated 2013 Series Revenue Bonds, as well as the line of credit described below, the Hospital is required to comply with certain restrictive financial covenants including, but not limited to, debt service coverage and debt to equity ratios. At September 30, 2024, the Hospital was in compliance with these restrictive covenants.

The scheduled maturities on long-term debt for the next five years ending September 30 and thereafter are as follows:

2025	\$ 747,144
2026	781,078
2027	816,554
2028	853,641
2029	892,413
Thereafter	<u>16,460,283</u>
	<u>\$20,551,113</u>

The Hospital has a \$6,000,000 revolving line of credit agreement with a financial institution. The line of credit shall bear interest at a variable rate per annum equal to the term SOFR for each SOFR interest period, as defined, plus 2.50% (7.67% at September 30, 2024). The loan made under this line of credit shall be due and payable in full on June 30, 2025. There was no balance outstanding under this agreement at September 30, 2024 and 2023.

8. Net Assets With Donor Restrictions

Net assets with donor restrictions are available for the following purposes at September 30:

	<u>2024</u>	<u>2023</u>
Subject to expenditure for specific purposes:		
Purchase of equipment	\$ 6,522	\$ 38,084
Health education and other	<u>498,188</u>	<u>498,330</u>
	504,710	536,414
Restricted endowments:

	<u>\$17,512,548</u>	<u>\$14,700,729</u>

Net assets with donor restrictions of \$6,791,711 and \$5,568,874 at September 30, 2024 and 2023, respectively, are to be held in perpetuity and include two perpetual trusts (note 5). The income and dividends on net assets held in perpetuity are generally expendable to support health care services and capital purchases at the discretion of the Hospital.

The Hospital's endowment funds are donor-restricted, and therefore exclude board-designated funds. The endowment net assets as of September 30, 2024 and 2023 are as follows:

	<u>With Donor Restrictions</u>	
	<u>2024</u>	<u>2023</u>
Original donor-restricted gift amount and amounts required to be maintained in perpetuity by donor	\$ 4,221,582	\$ 4,221,582

8. Net Assets With Donor Restrictions (Continued)

From time to time, certain donor-restricted endowment funds may have fair values less than the amount required to be maintained by donors or by law (underwater endowments). The Hospital has interpreted UPMIFA to permit spending from underwater endowments in accordance with prudent measures required under law. At September 30, 2024 and 2023, the Hospital had no underwater endowments.

9. Patient Service Revenue

An estimated breakdown of patient service revenues (including disproportionate share funding) by major payor sources is as follows for the years ended September 30:

	<u>2024</u>	<u>2023</u>
Private payors (includes coinsurance and deductibles)	\$ 24,501,176	\$22,795,724
Medicaid	6,311,553	8,630,732
Medicare	76,009,428	63,640,948
Self-pay	<u>3,446,150</u>	<u>3,829,973</u>
Patient service revenue	<u>\$110,268,307</u>	<u>\$98,897,377</u>

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs.

10. Employee Benefit Plans

The Hospital has a tax-sheltered annuity plan covering substantially all of its employees. Participating employees become eligible for employer contributions following the completion of two years of service, as defined, and attainment of age 21. Employer contributions are determined based on a percentage of employees' salaries and are discretionary. Benefit expense related to this plan for the years ended September 30, 2024 and 2023 amounted to approximately \$579,000 and \$514,000, respectively.

The Hospital also offers to a select group of management or highly compensated employees the option to participate in an Internal Revenue Code Section 457 deferred compensation plan to which the Hospital may make a discretionary contribution. The Hospital made contributions to the plan for the years ended September 30, 2024 and 2023 totaling \$17,500.

12. Commitments and Contingencies

Malpractice Loss Contingencies

The Hospital maintains malpractice insurance coverage on a claims-made basis. The claims-made policies, which are subject to retrospective adjustment and renewal on an annual basis, cover only claims made during the term of the policies, but not those occurrences for which claims may be made after expiration of the policies. The Hospital intends to renew its coverage and has no reason to believe that it will be prevented from renewing such coverage.

In accordance with ASU No. 2010-24, "Health Care Entities" (Topic 954): *Presentation of Insurance Claims and Related Recoveries*, the Hospital is required to record a liability related to estimated professional liability losses and also a receivable related to estimated recoveries under insurance coverage for recoveries of potential losses. At September 30, 2024 and 2023, management of the Hospital estimated that the Hospital did not have any significant exposure arising from estimated professional liability losses or significant estimated recoveries under insurance coverage for recoveries of potential losses.

13. Volunteer Services (Unaudited)

In 2024 and 2023, total volunteer service hours received by the Hospital were approximately 8,700 and 5,900, respectively. The volunteers provide nonspecialized services to the Hospital, none of which have been recognized as revenue or expense in the statements of operations.

14. Functional Expenses

The Hospital provides general health care services to residents within its geographic location. Expenses, excluding the New Hampshire Medicaid enhancement tax of \$5,118,534 and \$4,678,470 for 2024 and 2023, respectively, related to providing these services are as follows for the years ended September 30:

	<u>Health Services</u>	<u>General and Administrative</u>	<u>Total</u>

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

14. **Functional Expenses (Continued)**

The financial statements report certain expense categories that are attributable to more than one healthcare service or support function. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. Costs not directly attributable to a function, such as depreciation and interest, are allocated to a function based on square footage. Supporting activities that are not directly identifiable with one or more healthcare programs are classified as general and administrative. If it is impossible or impractical to make a direct identification, allocation of the expenses were made according to management's estimates. Employee benefits are allocated in accordance with the ratio of salaries and wages of the functional classes. Specifically identifiable costs are assigned to the function which they are identified to.

15. **Financial Assistance Program and Community Benefits (Unaudited)**

The Hospital maintains records to identify and monitor the level of financial assistance it provides. These records include the amount of charges foregone for services and supplies furnished under its financial assistance program, the estimated cost of those services and supplies, and equivalent service statistics. The following information measures the level of financial assistance provided during the years ended September 30, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Charges foregone, based on established rates (note 1)	<u>\$891,000</u>	<u>\$517,000</u>
Estimated costs incurred to provide financial assistance	<u>\$607,000</u>	<u>\$392,000</u>
Equivalent percentage of financial assistance services to all services	<u>0.46%</u>	<u>0.29%</u>

In addition to the financial assistance identified above, the Hospital does not receive full payment from the Medicare and Medicaid programs for the cost of services to certain poor and elderly patients served. In 2024 and 2023, the Hospital incurred costs in excess of payments in these programs amounting to approximately \$5,737,000 and \$8,453,000, respectively.

The Hospital also provides donations and other services to the community at no cost or reduced cost, such as screenings, clinics, etc. The cost of providing these services was approximately \$960,000 and \$3,549,000 for the years ended September 30, 2024 and 2023, respectively.

The Hospital also has direct subsidies for clinics of approximately \$16,300,000 and \$5,979,000 for primary care and various specialty practices for the years ended September 30, 2024 and 2023, respectively.

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

16. **Fair Value of Financial Instruments**

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Hospital uses various methods including market, income and cost approaches. Based on these approaches, the Hospital often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Hospital utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Hospital is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

In determining the appropriate levels, the Hospital performs a detailed analysis of the assets and liabilities that are subject to fair value measurements. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3.

For the fiscal year ended September 30, 2024, the application of valuation techniques applied to similar assets and liabilities has been consistent with prior years.

THE MONADNOCK COMMUNITY HOSPITAL

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

16. Fair Value of Financial Instruments (Continued)

The valuation of the interest rate swap agreements is estimated by a third party based on the anticipated cash flows under the swap agreements over their duration at market interest rates at September 30, 2024 and 2023.

There were no significant purchases, issues or transfers into or out of Level 3 for the years ended September 30, 2024 or 2023.

Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. As such, it is reasonably possible that changes in the fair value of investments will occur in the near term and that such changes could materially affect the amounts reported in the accompanying balance sheets and statements of operations.

The following methods and assumptions were used by the Hospital in estimating the "fair value" of other financial instruments in the accompanying financial statements and notes thereto:

Cash and cash equivalents: The carrying amounts reported in the accompanying statements of financial position for these financial instruments approximate their fair values.

Accounts and other receivables, notes receivable, accounts payable and estimated third-party payor settlements: The carrying amounts reported in the accompanying statements of financial position approximate their respective values as these financial instruments have short-term maturities or are recorded at amounts that approximate fair value.

17. Financial Assets and Liquidity Resources

Financial assets and liquidity resources available within one year for general expenditure, such as operating expenses, scheduled principal payments on debt, and capital construction costs not financed with debt, consisted of the following at September 30, 2024:

Cash and cash equivalents	\$25,282,327
Accounts receivable	10,613,339
Other receivables	<u>130,997</u>
	<u>\$36,026,663</u>

To manage liquidity, the Hospital maintains sufficient cash and cash equivalent balances to support daily operations throughout the year. Cash and cash equivalents include bank deposits, money market funds, and other similar vehicles that generate a return on cash and provide daily liquidity to the Hospital. In addition, the Hospital has board-designated assets without donor restrictions that can be utilized at the discretion of management to help fund both operational needs and/or capital projects. As of September 30, 2024, the balance in board-designated assets was approximately \$103.8 million.

Community Health Needs Assessment

Implementation Plan

2021 - 2024

February 2022

Monadnock
COMMUNITY HOSPITAL

YOUR LIFE. YOUR CAREER. YOUR HOSPITAL.

Background and Compliance

The Community Health Needs Assessment (CHNA) and the Implementation Plan (IP) are required by federal agencies.

- **The Affordable Care Act of 2010 requires all U.S. not-for-profit hospitals to complete a CHNA and Implementation Plan every three years.**
- **In 2021, Monadnock Community Hospital (MCH) worked with community service leaders, underserved populations, and others to complete its CHNA research and identify community health-related needs or service gaps.**
- **MCH prioritized the list of needs using qualitative and quantitative approaches.**

Requirements

The CHNA and the IP are separate but linked requirements.

CHNA requirements include – but are not limited to – the following:

- Define the community served by MCH.
- Describe the quantitative and qualitative methodology used to identify and prioritize community needs.
- Include a comprehensive list of community health or health-related resources.
- List the activities conducted since the prior CHNA to address the prioritized needs.
- Prioritize the list of community health needs to be included in the Implementation Plan.

IP:

- Identify which community needs the hospital will address and “how?”
- Identify which community needs the hospital will not address and “why not?”

IP Approach

Implementation Plan activities (i.e., actions taken to identify which community health needs will be addressed and how) included the following:

- **Conducting in-depth discussions with the MCH CHNA Leadership Team, who are all community leaders identified in the CHNA, to review the list of 28 community needs and identify which, if any, are outside of MCH's purview.**
- **Developing a matrix that identified existing programs or activities that positively impact one or more of the identified and prioritized community needs.**
- **Working with the CHNA Leadership Team to define for each of the needs the "degree of control that MCH has to enact change" and a "potential timeline on which positive change could reasonably be made to address the need."**
- **Creating this summary document that addresses the project requirements including clear recognition of activities within the hospital's purview to address and (if so), how the hospital can best address the needs.**

The full list of 28 community needs considered during prioritization from the CHNA is included on the next slide.

Identified Community Needs

The “Rank” refers to the results of the CHNA prioritization of community needs.

CHNA Rank		CHNA Rank	
1	Housing For All Incomes/Ages	15	Transportation Services
2	Behavioral Health Crisis Care & Emergency Services	16	Primary Care Services (Such As A Family Doctor Or Other Provider Of Routine Care)
3	Affordable Healthcare Services For People Or Families With Low Income	17	Job Readiness
4	Behavioral Health Services For Adolescents And Children	18	Programs For Diabetes And/Or Obesity
5	Behavioral Health Services For Depression Or Anxiety	19	Transportation For People Needing To Go To Doctor's Appointments Or The Hospital
6	Affordable Quality Childcare	20	Specialty Care Services: Dermatology
7	Post-addictions Treatment Support Programs	21	Secure Sources For Affordable, Nutritious Food
8	Early Intervention / Community Health Education For Substance Use Disorders	22	Specialty Care Services (Cancer Care)
9	Medical Assisted Treatment (MAT) For Opioid Addiction	23	Heart Health Or Cardiovascular Health
10	Caring For Aging Parents And Resources To Help	24	Specialty Care Services: Cardiology
11	Dental / Specialty Services	25	Parenting Classes
12	Prescription Assistance	26	Long-term Care Or Dementia Care
13	Homelessness	27	Emergency Care And Trauma Services
14	Domestic Violence Resources	28	HIV AIDS Testing

The Top 15 of 28 Needs were Selected for More In-depth Focus in the Implementation Plan Process

MCH currently addresses all, or most, of the 28 community needs identified in the CHNA in some way. However, the highest priority 15 were selected for more in-depth focus and analysis in the IP process.

- Evaluation Process: For each of the top 15 needs identified in the CHNA, MCH examined its current programs, outreach efforts and collaborations, as well as consideration for new initiatives such that each of the needs was assigned to one of the following groups:
 - Needs that are not part of MCH's purview (e.g., better addressed by other organizations). In this case, MCH will support and advocate for addressing the need but are not able to address the need directly.
 - Needs that MCH will address through collaboration with community partners.
 - Needs for which MCH will enhance existing programs or establish new ones. The hospital has current activities that may be able to be modified or expanded to address the community health need, or newly created activities or initiatives may be required to do so.

List of Highest Priority Community Needs

1. Housing For Income and Ages
2. Behavioral Health Crisis Care & Emergency Services
3. Affordable Healthcare Services For Low-income Individuals and Families
4. Behavioral Health Services For Adolescents And Children
5. Behavioral Health Services For Depression Or Anxiety
6. Affordable Quality Childcare
7. Post Addiction Treatment Support Programs
8. Early Intervention / Community Health Education For Substance Use Disorders
9. Medical Assisted Treatment (MAT) For Opioid Use Disorder
10. Care For Aging Parents and Additional Resources
11. Dental / Specialty Services
12. Prescription Assistance
13. Homelessness
14. Resources For Domestic Violence
15. Transportation Services

Additional Needs That Will NOT be Addressed (and “Why not?”)

MCH’s detailed Implementation Plan activities focused on the 15 highest priority community needs of the total of 28 needs identified in the CHNA.

- Of the 13 NOT selected for in-depth focus, MCH currently supports, and will continue to address, every one of them through existing collaborations, community support, and/or direct care.
- The 13 needs were not included for additional focus because they represent lower service gaps within the community, and MCH is already providing some level of support to address them.
- A list of the 13 needs not selected for additional focus is contained in Appendix D.

Categorization of Community Needs to be Addressed through Collaboration or Additional Focus

CHNA Leadership Team reviewed the identified needs and organized the highest-priority needs, into six categories.

1. Access to Affordable Housing.
2. Case Management and Care Coordination.
3. Behavioral Health and Substance Use.
4. Access to Services.
5. Specialty Care Populations.
6. Preventive Care.

Note: Throughout the Community Health Needs Assessment and Implementation Plan, the impact of the COVID-19 Pandemic has been and continues to be a critical factor to both identifying the needs and the ability to address the needs.

IP Activities Categories

To gain further insight into the community needs, the CHNA Leadership Team organized the 15 highest-priority needs into six categories.

Use Disorders

Of the 15 Needs Identified for Additional Focus, Impact Varies

MCH's ability and approach to addressing the 15 highest priority CHNA needs vary.

- Five are outside of MCH's purview.
- Five will be addressed through community partnerships.
- Seven will be addressed through continuing or enhancing existing programs.

Each group is described below.

Within the Top 15 Needs, Five are Out of MCH's Purview

Within the list of the 15 highest priority needs, several are largely outside of the hospital's purview. However, as noted above, some MCH programs already support community efforts to address the needs. Additionally, MCH will advocate and support community activities, where appropriate, to address the need.

Category	Community Need
Specialty Care / Populations	Affordable Quality Childcare
Specialty Care / Populations	Dental / Specialty Services
Access To Affordable Housing	Homelessness
Access To Affordable Housing	Housing For All Incomes & Ages
Mental Health & Substance Use Disorder	Post-addictions Treatment Support Programs

For High-priority Needs Within MCH's Purview, an In-depth Focus was Conducted

The CHNA Leadership Team members reviewed each of the 10 remaining needs for which MCH has, or may establish, programs to address on two scales:

1. Locus of Control: The degree of local control (i.e., the amount of influence MCH may possess to affect needs).
2. Timeline: The expected amount of time it would take to impact the need.

Based on the analysis, the CHNA Leadership Team and MCH's Community Relations Team identified a highly concentrated list of program focus areas that does the following:

- Addresses the highest priority needs (e.g., from the CHNA)
- Are within MCH's ability to control (i.e., "Locus of Control")
- Are expected to provide a positive impact in the "within 1-year," "one to three years," and "more than three years" time frames (i.e., "Timeline")

Needs For Which MCH Will Address Through Community Partnerships

MCH will address these needs through collaboration with community partners.

- Early intervention / educating the community on substance use disorders and transportation services were identified as needs for which MCH could make an impact within one year.
- Providing resources for domestic violence prevention and victims was identified as a need MCH could impact within one to three years.

Category	Community Need
Case Management / Care Coordination	Domestic Violence Resources
Preventive Care	Early Intervention / Community Health Education For Substance Use Disorders
Access To Services	Transportation Services

Needs For Which MCH Will Continue to Address or Enhance Through Existing Programs Within One Year

MCH has current activities that may be modified or expanded to address the following community health needs within one year.

Needs Group	Community Health Need
Access To Services	Affordable Healthcare Services For People Or Families With Low Income
Access To Services	Prescription Assistance
Mental Health & Substance Use Disorder	Behavioral Health Crisis Care & Emergency Services
Mental Health & Substance Use Disorder	Behavioral Health Services For Adolescents And Children
Mental Health & Substance Use Disorder	Behavioral Health Services For Depression Or Anxiety
Mental Health & Substance Use Disorder	Medical Assisted Treatment For Opioid Use Disorder
Specialty Care / Populations	Care For Aging Parents And Additional Resources

Note: Caring for aging parents, as well Behavioral Health Services For Adolescents And Children / for depression and anxiety were identified as needs MCH could lead in addressing and addressing through community partnerships with organizations and key stakeholders.

Examples Of Existing Programs & Activities That Are Currently Addressing High Priority Needs

As mentioned previously, MCH has existing established programming that could be expanded to meet the health needs of the community. **For a comprehensive detailed matrix of the current activities, MCH already has in place to address the needs, see the appendices.**

Needs Category	Programs
Affordable Healthcare Services For Low-income Individuals and Families	MCH offers Financial Assistance to all patients. Qualifications are based on their household income, some assets, and health insurance. We also refer to partner agencies to help with applying for insurance. MCH accepts both Medicare and Medicaid insurance. We also subsidize many programs and departments to allow access to healthcare for all.
Behavioral Health Services For Adolescents And Children Including Crisis Care & Emergency Services	Specifically the need is listed as "crisis care programs for mental health" and MCH is looking at the feasibility of creating a separate space to care for patients having a behavioral health crisis. The space would be adjacent to the Emergency Department. We also have an outpatient Behavioral Health department for our community to address mental health needs for our patients and are in the process of recruiting more providers.
Prescription Assistance	MCH's Medication Bridge Program has personnel to assist patients with applying to pharmaceutical companies that have patient assistance programs.

IP Activity Summary

Monadnock Community Hospital actively supports community health by providing direct care services and through community collaboration.

With this Implementation Plan, MCH has done the following:

- Reviewed the prioritized list of needs from the recent CHNA.
- Identified needs that the hospital will not address and provided rationale “why not?”
- Identified needs which the hospital WILL address and described pathways to address them in terms of the locus of control (e.g., community collaboration, development of new or existing programs, etc.) and timing (e.g., “Year 1” areas of focus).

Prescription Assistance	MCH's Medication Bridge Program has personnel to assist patients with applying to pharmaceutical companies that have patient assistance programs.
Medical Assisted Treatment (MAT) For Opioid Use Disorder	We are working on having a more established Medicated Assisted Treatment program in our outpatient Behavioral Health Program. MCH also is a leading member of a Behavioral Health Task Force called Be the Change that puts out a support group and resource guide to the community at least once a year with times and locations of recovery meetings such as AA, NA and OA.
Resources For Domestic Violence	MCH has a 24/7 crisis team in our Emergency Department, outpatient Behavioral Health department, and partnerships with local transitional housing and violence prevention organizations.

Appendix B: Existing Programs & Activities That Are Currently Addressing High Priority Needs

Needs Category	Current Program or Activity
Transportation Services	MCH makes an annual donation to our community non-profit transportation agency and has a representative from the hospital sitting on the board of this organization. MCH also assists with rides for patients that were brought into the Emergency Department via ambulance and need help with a ride home.
Care For Aging Parents and Additional Resources	MCH employs an APRN who is dedicated to our aging populations within our three community assisted living/nursing home facilities. In April 2020, MCH deployed a Mobile Integrated Health initiative to serve our most fragile patients in the community within their homes. In February 2022, MCH hired a full-time community paramedic lead for this department.
Dental/Specialty Services	Due to the pandemic, we have not been able to We can assist parents of pediatric patients with enrolling in NH Medicaid. For adult patients who do not have dental insurance or are on Medicaid which offers very minimal dental benefits, we refer patients to the Greater Nashua Dental Connection. MCH will pay for the patient's first two visits; 1st visit being a dental exam and x-rays and 2nd visit is for a cleaning or comparable dental service.
Behavioral Health Services For Depression Or Anxiety	This identified need is specifically focused on funding for patients suffering from anxiety and depression, whether inpatient or outpatient. MCH offers subsidized services in our outpatient Behavioral Health Department, and also financial assistance, medication bridge, and referrals to community-based services for patients in need.
Early Intervention / Community Health Education For Substance Use Disorders	MCH has a great partnership with both the Doorway Keene and Reality Check in Jaffrey to refer patients to that are seeking substance use support services. We also have a community Behavioral Health Task Force called Be the Change to educate and provide resources to our community.
